## Your system is only as good as the people installing it

Security Pros are part of an elite, national network of trained and certified dealers comprised of locally owned companies, specially selected for their expertise in security system design, installation and a whole lot more.

Security Pro dealers offer the kind of local knowledge and personalized service that can help advise you throughout the design and installation process. Security Pros are your professional guides for reliable, effective home security before, during and after the installation to meet your long-term needs.

## Designed to fit your needs and your lifestyle

Everyday life can get a little complicated. As things grow increasingly busy and complex, count on a skilled, local security expert to bring not only technology, but also convenience into your daily routine.

Security Pros offer customized options to meet your unique needs and budget, including optional remote monitoring that allows you to view household activity on Web-enabled devices, and a convenient color touch screen that controls security, lighting, HVAC, wireless door locks and even delivers weather reports.

### Flexible Security & Lifestyle Solutions

- Intrusion Detection
- Home Automation
- Remote Home Management
- Fire & Life Safety
- Video Surveillance

- Advanced security products by GE
- 24-hour monitoring
- Designed to meet your unique needs
- Failsafe backup technology
- Ongoing service that grows with your changing needs

## Features that keep your home and family safe and secure

When your GE system is installed by a Security Pro, you can rest assured your home and family are always safe and secure. These innovative systems keep you protected from threats inside and out – whether it's a potential burglary or break-in, a carbon monoxide leak or a flooded basement.

Plus, a backup power supply keeps your system fully operational during an electrical failure, ensuring that the central monitoring station will still be alerted in an emergency situation. Through ongoing services and support, your Security Pro can keep your home secure even as your needs change over time.

## Stay connected even when you're away

Security Pros can also help you take full advantage of custom security features that let your protection match your lifestyle, like the ability to access and control your system from any laptop, smartphone, tablet or other Web-enabled device.

Perhaps you have to work late or you're stuck in traffic – with a custom solution you can view live video of your home's security camera to check on kids, monitor household pets or communicate with elderly family members. You can even remotely adjust your home's lighting and thermostat to help control utility costs.

You can also take advantage of user-friendly features such as easy-to-understand buttons for arming, disarming and delivering system status updates. Whatever your needs or your lifestyle, your local Security Pro can create a custom solution that makes it easy to keep your home and family secure.

- Control the system remotely
- Accessible from any Web-enabled devices
- Remotely view home security cameras
- Monitor kids, pets or elderly family members while you're away
- Control security, lighting, HVAC, wireless door locks and more

### Key factors in designing your system:

- Size and style of your home
- Your security priorities
- Vulnerable entry points
- Fire safety and environmental monitoring needs
- Special concerns or needs for family members
- Consideration for children and pets

## A complete system for every home

Security Pros are trained to evaluate and design systems based on your unique situation. So whether your home is big or small, Security Pros take the time to get to know your needs and tailor a comprehensive home security system to meet your exact budget and requirements.

Our comprehensive line of security solutions can easily accommodate a variety of security priorities, providing unmatched protection and safety for your family and home. Once your system is installed, Security Pros will educate you on all the features and functions, making sure you understand how your system works for optimal performance.

Security Redefined

## Network resources you can count on no matter where you are

When you work with a Security Pro, you also benefit from having an entire network of dealers dedicated to meeting your security needs. The Security Pro network includes expert dealers throughout the U.S. and Canada. If you ever need to relocate, you have the assurance and convenience that comes with a local Security Pro nearby to ensure your safety and security in your new home.

The Security Pro network includes expert dealers throughout the U.S. and Canada.

# Security Redefined

As the world grows increasingly complex, it demands skilled, local professionals who can incorporate advancing technology into everyday life. Security Pros are part of an elite network of experienced dealers, trained and certified to assess the comprehensive needs of each client. Their expertise represents the highest standard for security and beyond, including lifestyle management solutions to monitor and control home systems while you're home or when you're away. For integrated solutions adapted to the modern world, Security Pros are the benchmark by which all others are measured.
